

First of all thanx for choosing this map.

A quick guide to become somewhat competent fake farmer

This is grand overview of what you will find

1Herd Farm:

Buy cows, chickens, sheep, they will show up here in their respective places. You feed them here. You might not to be able to lead them to the river, but you still can make them drink. Oh, yeah, feed the chickens too (do not feed them fertilizer-usually regrettable outcome) Grains go into silos, dirt crops go into sheds. Go into a barn with a fertilizer stock in it you will find your supplies. For your convenience there is also a cow feeding compound right of a silo. Do not let your shit lying around disorderly - milk truck will come and just stand there.

2 Sugar beet plant

-If it needs to be explained you need to stop playing and start doing something that involves rocks and sticks.

3 The Station:

Everything gets sold here (reference your PDA)

4 Stone Warehouse:

Sell cereals here.

B G A: silos do not hold all that much I think 130000 ,175000 respectively. I don't put much emphasis on it. I find the BGA kind of useless.

5 Farm 2

Here you got room to keep your equipment. Grains go into silos. Get your fertilizer, seed, and fuel here. Seed will be obvious, fertilizer you got to go around the silo wall. Here also you get to sell straw and grass. If you can't find it, I cannot help you. Do not drag straw or hay bales into silos, you will not sell them there.

6 Old Barn

Drag bales there.

7 Supply Depot

Here you get your supplies sell straw and grass, here also you get stuck a lot.

8 The Wind Mill

Just look at it, watch it spin. It is there for esthetics.

9 Aux silo

You should know, if not, drive through it with a full trailer.

10 The Village

This is where your ass resides. You will find there two teleportation triggers. One will throw you to Herd Farm. The other to Farm 2.

11 Lake

There is water in it, but more importantly you will find water pump by the bridge. There is another one, look for it.

12 Grunwald Trade

You buy and sell here everything except wool (wool is sold by the milkery on the other side). If you greedy, you be visiting here a lot, because prices are higher.

Note. Do not look for horseshoes north of the tracks. You work there not wander around looking for shit.

Lastly, Vehicle shop- buy something and It will show up there.
